SONY

Getting Started

GB

Google TV

Network Media Player

NSZ-GS7

Screen images, operations, and specifications are subject to change without notice.

Getting Started:

I / ⏻ ON/STANDBY

Turns the player on or off.

Control connected devices with one remote:

- To use this function, make sure that the player is on.
- For details on the settings for the remote code, see “Help Guide” (page 14).

—TV/AMP—

• I / ⏻ ON/STANDBY (TV/AMP)

Turns on or off the TV/AV Receiver.

• INPUT (TV/AMP)

Changes inputs.

GUIDE*1

Displays the TV Programme Guide.

PVR PVR*2

Displays the PVR (Personal Video Recorder) menu.

TV TV*1

Displays Live TV.

*1 Available only when the player is connected to a Set Top Box.

*2 Available only when the player is connected to a Set Top Box with the PVR function.

To control your AV Receiver:

Fn

Function

Keys with orange dots will be available for use in providing AV Receiver control when the Function indicator is on.

Volume/Programme Positions Control (on the side):

VOLUME
Turns the volume up or down.

MUTING
Silences the sound

PROGRAMME POSITIONS*
Selects the next (+) or previous (–) programme positions.

* Available only when the player is connected to a Set Top Box.

Basic Control:

PICTURE IN PICTURE

Displays two pictures, such as a TV programme and a website, on the screen, simultaneously (page 11).

HOME

Opens the Home screen (page 6).

BACK

Returns to the previous display, or exits the application.

MENU (OPTIONS)

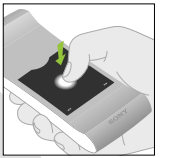
Displays special options associated with each feature.

Playback Control:

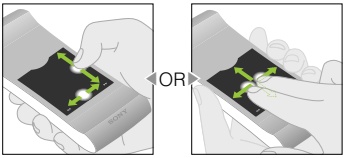
These keys are available when videos, music, or photos are playing. The ◂◂ and ▸▸ keys work only when they are held down continuously (not tapped).

Operate intuitively with a touch-pad:

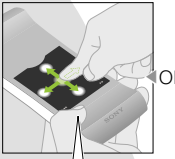
You can click, scroll, drag and drop, and zoom in/out with your remote.



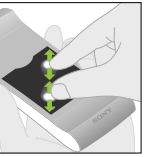
Click



Scroll vertically & horizontally



Drag & drop



Zoom in/out

See "Help Guide" (page 14) for more gestures and detailed explanations.

Press and hold the button to drag an item, then release the button to drop it.

Using the special keys:

Search

Type your query in the Quick Search Box, and the player will suggest content from various media.

Bookmark

Bookmarks your favourite content.

Other keys:

Function

Keys with orange markings will be available when the Function indicator is on.

Shift

Language Selector

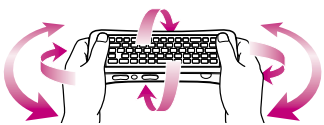
When using in the dark:

Fn ▶

Turns the backlight on and off*.

* You can set the backlight to be turned on and off automatically from “Settings” (see “Help Guide” (page 14) for details).
Please note that battery power drains quickly when using this function.

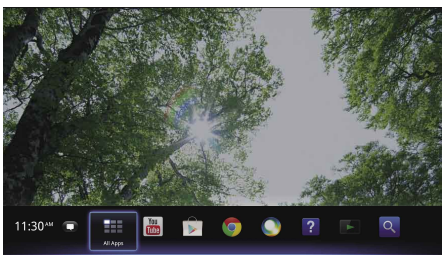
Control with motion:



Motion control is available when you are launching compatible applications.

Home

Access each feature from here



You can access various content and applications from the Home screen. The Home screen contains Notifications, All Apps, and shortcuts to select applications and websites.

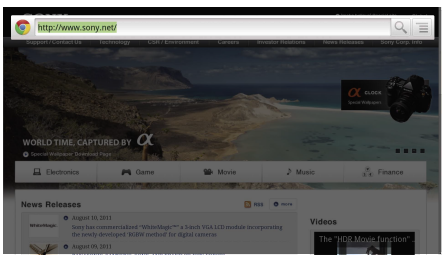
press

The Home screen can be customised to suit your preferences. You can arrange the Home menu, add widgets to the Home screen, and change the wallpaper.

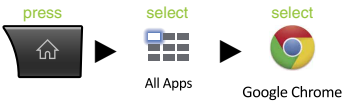
press press

Google Chrome

Browse websites



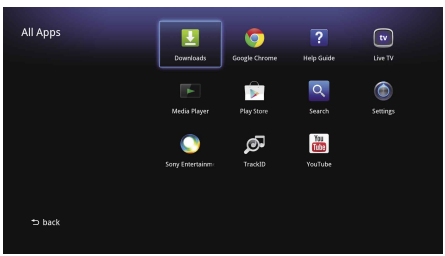
This player uses Google Chrome™ as its web browser. You can access all your favourite websites with the Google Chrome web browser.



Websites can be bookmarked, and you can access bookmarks from the browser menu. You can also add a shortcut of a website to All Apps.

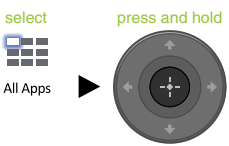
All Apps

Enjoy installed applications

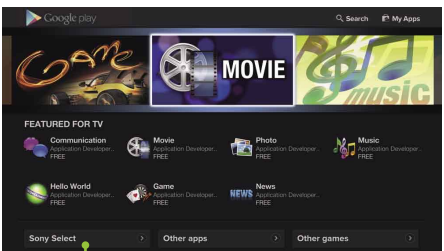


You can access all applications installed on your player from the All Apps list. You can launch applications including Live TV, Media Player, and Help Guide from here.

Applications or bookmarks in the All Apps list can be uninstalled, hidden, or removed, depending on what you select.

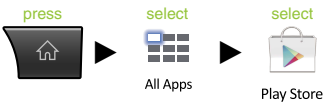


Find interesting applications



Access applications that Sony recommends from the Sony Select tab.

Google Play™ can provide you with additional favourite applications.
You can download applications and instantly use them on your player. Downloaded applications are stored in All Apps.



You can check the progress of downloads.

Media Player

Play files from USB devices/internal memory

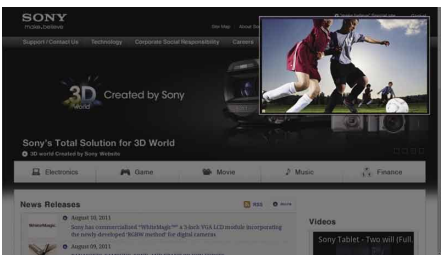
You can play back audio/video/image files stored on a USB device (for details, see the Help Guide (page 14)), using Media Player.

You can select a device and change its settings.

Photos, music, and movies can be downloaded from websites and stored in the Download folder in the internal memory or USB storage devices.

Picture-in-Picture

Enjoy applications and websites while watching TV



PIP (Picture-in-Picture) is a feature that allows you to display the TV screen in a smaller window (a sub window). For example, you can browse the Internet on the full screen, while watching a TV programme in a sub window at the same time.

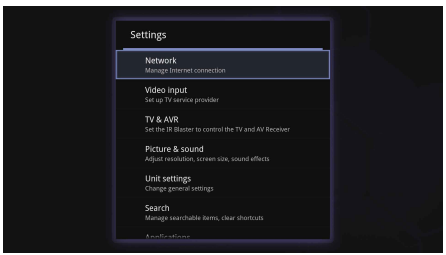
press

You can change the size and position of the sub window.

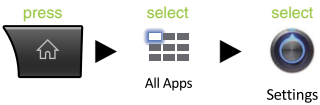
hold

This function is available only when you watch pictures output from a Set Top Box or PVR.

Settings



You can change various settings for your player from the Settings menu.



You can also access the Settings menu from the menu that appears when the Home screen is displayed.

Media Remote

Use your smartphone or tablet more effectively

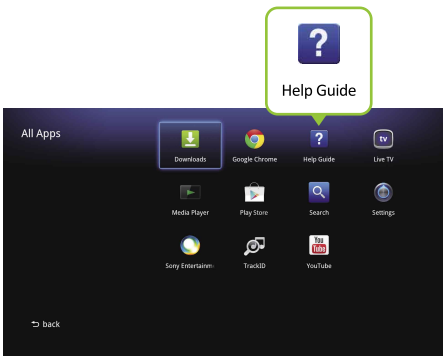
Download the free “Media Remote” app to your Android™ phone, Android™ tablet, or iPhone.

Scan for Android

Scan for iPhone

Using Media Remote, you can use the device as a remote for the player, search for music that is being played, or send websites displayed on the device to the TV.

Help Guide



The Help Guide gives you detailed information on how to use the player.

You can also access the Help Guide from a PC browser.
